Highlights

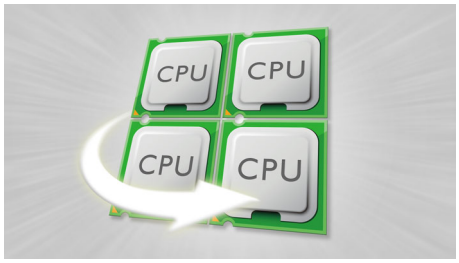
Dual 3.5" WVGA IPS display

This Philips phone gives new meaning to opulence and extravagance, thanks to not just one but two awesome 3.5" WVGA IPS touch screens housed in a classical clamshell design. It can be used like a regular single screen phone when closed, allowing you to view images and videos for entertainment, as well as access your important emails and apps to keep your hectic life running on track. Or you can choose to flip the phone open to reveal the aesthetic internal touch screen and ergonomic keypad. Whichever way you choose, this classy phone elevates the clamshell to new palatial heights.

Exquisite hint of gold

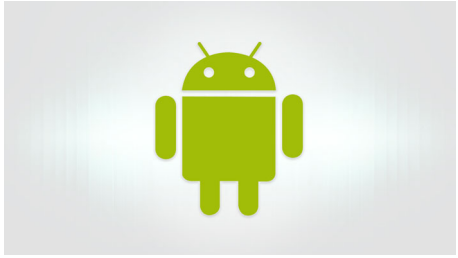
Your Philips phone is designed to captivate those who insist on distinctive elements and best in class choices. Designed in a classic clamshell, the phone is not just a joy to hold in any hand, but radiates a timeless appeal with its exquisite gold metallic touch. This is one truly unique phone that mirrors your status in life and gets you connected in the most extraordinary way.

1.2GHz quad core processor



Your Philips mobile phone now zooms along like never before, thanks to the powerful 1.2GHz quad core processor. This powerhouse keeps up easily with your multitasking demands at a much faster speed. Load web pages with lightning speed, watch uninterrupted videos plus get animations fast- and we mean fast! Gaming is seamless and immersive with exceptional picture quality.

Android 4.2



Empowered by Android, your Philips mobile now comes with a fully customizable mobile platform that is open to a wide range of smart applications and functions. Find your pocket PC, games console and telephone all rolled conveniently into one.

Up to 16 hours talk time

The phone can support up to 16 hours of conversation on a single charge.

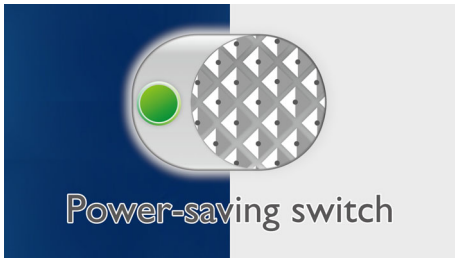
Up to 10 hours web browsing

Enjoy web browsing for up to 10 hours on a single charge.

Dual mode (WCDMA and GSM)

Your Philips mobile phone incorporates two SIM cards to allow you access to WCDMA and GSM network connections at the same time. Now you can enjoy wider mobile coverage on two networks with just one phone.

Power-saving switch



This Power-saving switch may well be the most convenient feature on your Philips mobile phone. By clicking the button located on the side panel, you can enable this function to help preserve your phone battery. It will shut down the WiFi, GPS and Bluetooth functions, while dimming the screen display simultaneously. Besides avoiding the multiple clicks needed to do likewise on other phones, this clever yet convenient button is definitely a lifesaver for heavy phone users.
